

INDEPENDENT ASSURANCE REPORT

To the management of CERTSIGN S.A.
Certification Authority ("certSIGN")

5 May 2023

Scope

We have been engaged, in a reasonable assurance engagement, to report on [certSIGN management's assertion](#) that for its Certification Authority (CA) operations at Bucharest, Romania, throughout the period 2022-02-08 to 2023-02-07 for its Root CA with OU = certSIGN ROOT CA, O = certSIGN, C = RO, and 10 intermediate CA servers, certSIGN has:

(1) disclosed its business, key lifecycle management, certificate lifecycle management, and CA environment control practices in its:

- [Certification Policy, certSIGN, Version 1.14 as of 31 January 2023,](#)
- [Certification Policy, certSIGN, Version 1.13 as of 6 June 2022,](#)
- [Certification Policy, certSIGN, Version 1.12 as of 31 January 2022,](#)
- [Certification Practice Statement, certSIGN, ROOT CA & sub-CAs, Version 1.36 as of 31 January 2022,](#)
- [Certification Practice Statement, certSIGN, ROOT CA & sub-CAs, Version 1.37 as of 6 June 2022,](#)
- [Certification Practice Statement, certSIGN, ROOT CA & sub-CAs, Version 1.38 as of 6 October 2022,](#)
- [Certification Practice Statement, certSIGN ROOT CA & Intermediate CAs, Version 1.39 as of 31 January 2023,](#)
- [Certification Practice Statement, certSIGN, SSL DV CA Class 3 G2 for SSL DV certificates, Version 1.16 as of 31 January 2023,](#)
- [Certification Practice Statement, certSIGN, SSL DV CA Class 3 G2 for SSL DV certificates, Version 1.15 as of 6 October 2022,](#)
- [Certification Practice Statement, certSIGN, SSL DV CA Class 3 G2 for SSL DV certificates, Version 1.14 as of 6 June 2022,](#)
- [Certification Practice Statement, certSIGN, SSL DV CA Class 3 G2 for SSL DV certificates, Version 1.13 as of 31 January 2022,](#)
- [Certification Practice Statement, certSIGN, SSL EV CA Class 3 G2 for SSL EV Certificates, Version 1.16 as of 31 January 2023,](#)
- [Certification Practice Statement, certSIGN, SSL EV CA Class 3 G2 for SSL EV Certificates, Version 1.15 as of 6 October 2022,](#)
- [Certification Practice Statement, certSIGN, SSL EV CA Class 3 G2 for SSL EV Certificates, Version 1.14 as of 6 June 2022,](#)
- [Certification Practice Statement, certSIGN, SSL EV CA Class 3 G2 for SSL EV Certificates, Version 1.14 as of 31 January 2022.](#)

- (2) maintained effective controls to provide reasonable assurance that:
- certSIGN Certification Practice Statement is consistent with its Certificate Policy
 - certSIGN provides its services in accordance with its Certificate Policy and Certification Practice Statement,
- (3) maintained effective controls to provide reasonable assurance that:
- the integrity of keys and certificates it manages is established and protected throughout their lifecycles;
 - the integrity of subscriber keys and certificates it manages is established and protected throughout their lifecycles;
 - subscriber information is properly authenticated (for the registration activities performed by certSIGN and its subcontractor); and
 - subordinate CA certificate requests are accurate, authenticated, and approved
- (4) maintained effective controls to provide reasonable assurance that:
- logical and physical access to CA systems and data is restricted to authorized individuals;
 - the continuity of key and certificate management operations is maintained; and
 - CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity

in accordance with the [WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security, version 2.6](#).

Certification authority's responsibilities

certSIGN management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the [WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security, version 2.6](#).

Our independence and quality control

We have complied with the independence and other ethical requirements of the [Code of Ethics for Professional Accountants](#) issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

The firm applies International Standard on Quality Control 1, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Auditor's responsibilities

Our responsibility is to express an opinion on management's assertion based on our procedures. We conducted our procedures in accordance with International Standard on Assurance Engagements 3000, *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board. This standard requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's assertion is fairly stated, and, accordingly, included:

- (1) obtaining an understanding of certSIGN key and certificate lifecycle management business practices and its controls over key and certificate integrity, over the authenticity and confidentiality of subscriber and relying party information, over the continuity of key and certificate lifecycle management operations and over development, maintenance and operation of systems integrity;

- (2) selectively testing transactions executed in accordance with disclosed key and certificate lifecycle management business practices;
- (3) testing and evaluating the operating effectiveness of the controls; and
- (4) performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The Audit Team consisted of 5 persons including Audit Quality Reviewers. The team qualifications included CPA, PhD, CISA, CISM, CISSP and was lead by Dr. Péter Máté Erdősi PhD CISA. The average years of auditing experience – auditing trust services or similar information systems – are 15 years in the audit team.

All team members have knowledge of

- (1) audit principles, practices and techniques,
- (2) the issues related to various areas of public key infrastructure of CAs information security including risk assessment/management, network security and physical security;
- (3) the applicable standards, publicly available specifications and regulatory requirements for CAs and other relevant publicly available specifications including standards for IT product evaluation; and
- (4) the WebTrust Audit processes.

Additional qualification and personal experience of the Lead Auditor, the Lead Auditor

- (1) has acted as auditor more than 30 complete trust service provider audits since 2000,
- (2) has adequate knowledge and attributes to manage the audit process, and
- (3) has the competence to communicate effectively, both orally and in writing.

Relative effectiveness of controls

The relative effectiveness and significance of specific controls at certSIGN and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

Inherent limitations

Because of the nature and inherent limitations of controls, certSIGN ability to meet the aforementioned criteria may be affected. For example, controls may not prevent, or detect and correct, error, fraud, unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection of any conclusions based on our findings to future periods is subject to the risk that changes may alter the validity of such conclusions.

Opinion

In our opinion, throughout the period 2022-02-08 to 2023-02-07, certSIGN management's assertion, as referred to above, is fairly stated, in all material respects, in accordance with the [WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security, version 2.6](#).

This report does not include any representation as to the quality of certSIGN services beyond those covered by the [WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security, version 2.6](#), nor the suitability of any of certSIGN services for any customer's intended purpose.

Use of the WebTrust seal

certSIGN's use of the WebTrust for Certification Authorities Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

5 May 2023

CERTSIGN S.A. MANAGEMENT'S ASSERTION

CERTSIGN Certification Authority ("certSIGN") is operated by CERTSIGN S.A., and has one Root CA with OU = certSIGN ROOT CA, O = certSIGN, C = RO, and three intermediate CA servers relating to website authentication certificates (publicly trusted SSL certificates):

- CN = certSIGN SSL DV CA Class 3 G2, OU = certSIGN SSL DV CA Class 3 G2, O = certSIGN, C = RO,
- CN = certSIGN SSL EV CA Class 3 G2, OU = certSIGN SSL EV CA Class 3 G2, O = certSIGN, C = RO, and
- CN = certSIGN Enterprise CA Class 3 G2, OU = certSIGN Enterprise CA Class 3 G2, O = certSIGN, C = RO.

certSIGN provides the following CA services related to website authentication certificates (SSL certificates):

- Subscriber registration,
- Certificate issuance,
- Certificate distribution,
- Certificate validation,
- Certificate renewal,
- Certificate revocation.

The management of certSIGN is responsible for establishing and maintaining effective controls over its CA operations, including its CA business practices disclosure (<https://www.certsign.ro/en/repository/>) on its website, CA business practices management, CA environmental controls, CA key lifecycle management controls, subscriber key lifecycle management controls, certificate lifecycle management controls, and intermediate CA certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to certSIGN Certification Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

certSIGN management has assessed its disclosures of its certificate practices and controls over its CA services. Based on that assessment, in providing its Certification Authority (CA) services at Bucharest, Romania, throughout the period 2022-02-08 to 2023-02-07, certSIGN has:

(1) disclosed its business, key lifecycle management, certificate lifecycle management, and CA environment control practices in the following documents related to website authentication certificates (publicly trusted SSL certificates):

- [Certification Policy, certSIGN, Version 1.14 as of 31 January 2023.](#)
- [Certification Policy, certSIGN, Version 1.13 as of 6 June 2022.](#)
- [Certification Policy, certSIGN, Version 1.12 as of 31 January 2022.](#)
- [Certification Practice Statement, certSIGN, ROOT CA & sub-CAs, Version 1.36 as of 31 January 2022.](#)
- [Certification Practice Statement, certSIGN, ROOT CA & sub-CAs, Version 1.37 as of 6 June 2022.](#)
